

Individual State Reports

New Hampshire Impact of Declining Revenues on Higher Education From 1991-2016

State Appropriations and Tuition

NOTES: Data adjusted for inflation using the Higher Education Cost Adjustment (HECA). Full-time equivalent (FTE) enrollment equates student credit hours to full-time, academic year students, but excludes medical students. Educational appropriations are a measure of state and local support available for public higher education operating expenses including ARRA funds, and exclude appropriations for independent institutions, financial aid for students attending independent institutions, research, hospitals, and medical education. Net tuition revenue is calculated by taking the gross amount of tuition and fees, less state and institutional financial aid, tuition waivers or discounts, and medical student tuition and fees. Net tuition revenue used for capital debt service is included in the net tuition revenue figures above.

SOURCE: State Higher Education Executive Officers

	1991	2008	2016
Percent of State Appropriations	42.4	29.5	21.2
Percent of Tuition	57.6	70.5	78.8

New Hampshire has always required more in tuition than most states. In 1991, it only provided 42.4% (\$5,216) of the total cost of education, but had fallen almost 41% in 2016, providing only 21.2% (\$3,064) of the cost. In the meantime, tuition had increased by 60% during the same period. Students now are expected to pay 78.8% of the cost of education. An extremely burdensome number.

Cost-Saving Measures Employed by New Hampshire

Cost-Saving Step	
Raise Tuition	No data
Lay off Staff	No data
Lay off Faculty	No data
Course Cuts	No data
Cut Programs (academic)	No data
Cut Programs (student)	No data
Hiring Freeze	No data
Pay Freezes	No data

Cost-Saving Step	
Out-of-state Tuition Increase	No data
Other Cuts	No data
Closings	No data
Consolidation	No data
Cuts to Sports	No data
Performance-based Budgeting	No
Restrict Tuition Increase	No
Increase Cost-Efficiency	No

Note: Not much information was available at the time of this writing for New Hampshire. However, there was some information on universities using performance-based budgeting, restricting tuition increases and increased cost-efficiency. Tuition has increased during the same period with a tapering off from 2003-2006.
